

Final Project	
Github Portfolio	
Name: Mendoza, Roy Gabriel I.	Date Submitted:
Course Code and Title: CPE201A - Computer System Administration and Troubleshooting	Instructor: Engr. Lloyd Pornobi
1. Objective/s:	
This final project aims to demonstrate the student's ability to create and build a GitHub portfolio by compiling and organizing outputs from other Computer Engineering courses.	
2. Intended Learning Outcome/s:	
By the end of this final project, the students should be able to: <ul style="list-style-type: none"> ● Develop a professional GitHub portfolio that effectively showcases their projects and demonstrates integration of knowledge from various Computer Engineering courses. 	
3. Directions:	
<p>1. Create a New Repository</p> <ul style="list-style-type: none"> ● Log in to your GitHub account. ● Click New Repository. ● Set the repository title as: CPE201A_FP_SURNAME ● Add a short description, for example: "Final Projects Compilation for CpE Courses." ● Choose the repository visibility (Public or Private). ● Click Create Repository. <p>2. Prepare Files on Ubuntu Linux</p> <ul style="list-style-type: none"> ● Open your Ubuntu terminal. ● Navigate to the directory where your final projects are saved. cd ~/Documents/CpE_Projects ● Organize your project folders according to different CpE courses, for example: CPE201A_FP_SURNAME/ __ CPE101/ __ CPE102/ __ CPE103/ __ CPE104/ ● Make sure each folder contains the corresponding final project files from that course. 	

3. Initialize Git and Push to GitHub

4. Verify and Share

- Go to your GitHub repository online and confirm that all files and folders are properly uploaded and organized.
- Copy your repository link and make sure it is accessible (if required, set repository visibility to “Public”).

5. Documentation

- Take screenshots of the following:
 - Repository creation page.
 - Organized folder structure.
 - Ubuntu terminal commands during initialization, commit, and push.
 - Final GitHub repository page showing the uploaded projects.
- Compile all screenshots and input it in Section 4. Outputs.

4. Outputs:

PROCESS SCREENSHOTS/TERMINAL COMMANDS:

```

DOCUMENTATION ITSELF: REPOSITORY CREATION PAGE:

The screenshot shows the GitHub 'Repository default branch' configuration page. On the left, a sidebar lists account settings like Public profile, Account, Appearance, Accessibility, Notifications, Access (Billing and licensing, Emails, Password and authentication, Sessions, SSH and GPG keys, Organizations, Enterprises, Moderation), and Code, planning, and automation (Repositories, Codespaces). The 'Repositories' link under 'Code, planning, and automation' is highlighted. The main content area is titled 'Repository default branch'. It explains that users can choose a default branch name (e.g., 'master') for new repositories. A 'main' button is selected, with an 'Update' button nearby. Below this, the 'Repositories' section lists existing repositories: 'MendozaRoycpe' (with two repositories: 'MendozaRoycpe/CPE201A_FP_MendozaRoy' and 'MendozaRoycpe/CPE201A_MendozaRoy').

ORGANIZED FOLDER STRUCTURE:

A screenshot of a GitHub repository page for 'CPE201A_FP_MendozaRoy'. The repository is public and contains three commits from 'NARBERALZ' made 4 minutes ago. The commits are: 'Initial porfolio commit for CPE courses' (CPE007), 'Initial porfolio commit for CPE courses' (NSTP001), and 'Initial commit' (README.md). The README file contains the text 'FINAL PROJECT COMPILATIONS FOR CPE COURSES'. The repository has 0 stars, 0 forks, and 0 watching.

The screenshot shows a GitHub repository page for 'CPE201A_FP_MendozaRoy / NSTP001'. The repository name is 'CPE201A_FP_MendozaRoy' and the branch is 'main'. The commit history lists one commit by 'NARBERALz' with the message 'Initial porfolio commit for CPE courses' and timestamp '9c85a65 · 9 minutes ago'. Below the commit list, there is a file named 'IMG_20251113_145911.jpg'.

<><>NOTE<><>:

The activities in csat(which is this) and pathfit(currently being edited) will be put later after it is done.

5. Conclusion/Learnings/Analysis:

For some reason, my ssh key is not working and I forgot my passphrase so I did repeat the activity 14, ssh-keygen to make sure that I got the key right. This activity is very easy for some reason, unless you forget your passphrase, as I only need to put the files inside of the folders in my computer and push it to the github. As for my key learnings, git is not only for tracking code changes, but also for organizing and compiling sets of work from different courses(which is applied here).

6. Assessment Rubric:

Rubric for SO 7 (7)							
Criteria	Ratings						Pts
⑤ SO 7 PI 1 Student Outcome 7.1 Acquire and apply new knowledge from outside sources. threshold: 4.8 pts	6 pts Excellent Educational interests and pursuits exist and flourish outside classroom requirements.knowledge and/or experiences are pursued independently and applies knowledge learned into practice	5 pts Good Educational interests and pursuits exist and flourish outside classroom requirements,knowledge and/or experiences are pursued independently	4 pts Satisfactory Look beyond classroom requirements, showing interest in pursuing knowledge independently	3 pts Unsatisfactory Begins to look beyond classroom requirements, showing interest in pursuing knowledge independently	2 pts Poor Relies on classroom instruction only	1 pts Very Poor No initiative or interest in acquiring new knowledge	6 pts
⑤ SO 7 PI 3 Student Outcome 7.3 Critical thinking in the broadest context of technological change threshold: 4.8 pts	6 pts Excellent Synthesizes and integrates information from a variety of sources; formulates a clear and precise perspective; draws appropriate conclusions	5 pts Good Evaluate information from a variety of sources; formulates a clear and precise perspective.	4 pts Satisfactory Analyze information from a variety of sources; formulates a clear and precise perspective.	3 pts Unsatisfactory Apply the gathered information to formulate the problem	2 pts Poor Gather and summarized the information from a variety of sources but failed to formulate the problem	1 pts Very Poor Gather information from a variety of sources	6 pts
⑤ SO 7 PI 4 Student Outcome 7.4 Creativity and adaptability to new and emerging technologies threshold: 4.8 pts	6 pts Excellent Ideas are combined in original and creative ways in line with the new and emerging technology trends to solve a problem or address an issue.	5 pts Good Ideas are creative and adapt the new knowledge to solve a problem or address an issue	4 pts Satisfactory Ideas are creative in solving a problem, or address an issue	3 pts Unsatisfactory Shows some creative ways to solve the problem	2 pts Poor Shows initiative and attempt to develop creative ideas to solve the problem	1 pts Very Poor Ideas are copied or restated from the sources consulted	6 pts

Total Points: 18
